## **Robin Harley** – Conservation in the Christchurch Area

Members will recall the most enjoyable walk over Stanpit Marsh that took place in September last year.

which was led by Robin, who impressed both with his knowledge and his humour.

He is the Countryside Area Manager for BCP Council and will give an illustrated talk about the rich and

diverse wildlife sites found in the local area. He will identify key local wildlife species and what conservation work goes into conserving them and the habitats they live in.

Robin
