

Richard Hutley

Who Shot JFK?

September 2025

Richard is a retired police officer who delivers a number of different talks, and this one seemed particularly interesting.

It's a matter of fact that on November 22, 1963, President John F. Kennedy was assassinated as he rode in a motorcade through Dealey Plaza in downtown Dallas, Texas. But who shot him? Oswald? The Man on the Grassy Knole? Was it 3,4, or 10 shots? What did JBJ have to gain? Was George H. Bush involved?

Richard makes it clear that sometimes
factual history is not what they tell you!
