

Visit to Buckler's Hard, 18 June 2015

18 members and guests visited this 18th Century shipbuilding village on a lovely sunny day, for a guided tour in the morning, then free time for lunch, with a boat trip along the Beaulieu River in the afternoon.

The tour of the museum was led by a lady in early 18th Century costume; the boat went down-river towards the Solent where points of interest were pointed out.

The picture shows the group 'prior to embarkation'
